

CONTRACTORS CRITICISE WORK BUILDING INSPECTOR'S OFFICE

May Take Matter Up With City Commissioners or the Council.

DECLARE THERE IS LACK COMMON-SENSE METHODS

Unable to Get Action Ready on Their Applications for Permits—Commissioners Have Already Taken Inspector to Task for Permitting Erection of Buildings Contrary to By-law—

The contractors of the city are up in arms over what they term a laxity of common sense methods in the building inspector's department and unless there is an improvement of conditions in the immediate future the question will be taken up with the city commissioners or with the council.

Under existing conditions a contractor goes to the building inspector's office and tells a clerk that he wants a permit for a certain building. The clerk has not authority to issue the permit as it has to be signed by the inspector, who is usually out, and as a result he takes the price of the permit, gives the contractor a receipt for the money telling him that his permit will be mailed within a few days. The contractor goes ahead with his building and in several cases has had the structure practically completed before the permit is received from the inspector that no permit would be issued. Meanwhile the administrator has spent hundreds of dollars in material and labor under the impression that his permit would be mailed to him, never thinking

(Continued on Page Eight.)

Demonstration Farms Will be Announced Next Week

Announcement will be made by the minister of agriculture next week, probably Tuesday, of the location of the five demonstration farms that are to be established by the provincial government this year at various points in the province, and for which a total of \$125,000 was appropriated at last session. Hon. Duncan Marshall stated this morning that as soon as the provincial cabinet had passed upon his recommendations for the locations of the farms, the announcement would be made. The matter will be settled before Premier Sifton leaves for the west to the south of the province. There is already a farm at Medicine Hat, and with two of the others, the south would have an equal share with the north in the division of the farms. Innisfail, Vermilion and Olds are spoken of as the most likely points in the north to receive farms.

BUSINESS BLOCK TO BE ERECTED

A large business block is to be erected on First street immediately east of the King Edward hotel, on the property recently purchased by Calgary business men.

The plans for the block have not yet been completed, but it is understood that it will be four stories, covering the full size of the fifty foot lot. The owners of the property are the Alberta Investment company, at the head of which is understood to be Messrs. Geo. Bryan and Jas. Short of Calgary.

TRIO OF INSPECTORS OF CREAMERIES NAMED

They Are Christian Marker, G. W. Scott and H. S. Pearson.

NEW DAIRY ACT PROVIDES INSPECTION CREAMERIES

No Exception Made in Cases of either Private or Government Dairies—Farmers Will Get a Square Deal Because All Cream Must Be Tested by Weight Instead of Measure.

The first inspectors of creameries in the province to be appointed by the provincial government under the new dairy act passed last session, received their appointments from Hon. Duncan Marshall, minister of agriculture, yesterday. They are Christian Marker, who is provincial dairy commissioner, and G. W. Scott of Innisfail, and H. S. Pearson of Red Deer.

The feature of the new dairy act is that it provides for inspection of all creameries in the province, private and government, and government alike, where previously it was possible for the government to provide for inspection only of government creameries.

(Continued on Page Eight.)

Press of Municipal Business Necessitates Appointment of Additional Commissioners

A stupendous demand for milk has arisen in both Calgary and Edmonton, according to information given the Capital this morning, and milk dealers in both cities are finding it almost impossible to get sufficient milk to fill the demand.

Names of Probable Appointees Have Not Been Decided Upon by the Council

DEFINITE ACTION EXPECTED NEXT TUESDAY EVENING

Realizing that there is no possibility of the city commissioners and council reaching an agreement on the question as to what type of machinery should be purchased by the city, and that there is certain to be disagreements between the administrative and legislative departments on other questions of equal importance, the council at the adjourned meeting yesterday afternoon decided to appoint two more commissioners to act with the present commission board.

As to who will be appointed, nothing has been definitely decided as yet, and no official announcement will be forthcoming until the council meeting on Tuesday evening. The statement published in a morning paper to the effect that City Auditor Richardson, Superintendent McLean and ex-Chief Davidson would be appointed is without foundation, as none of these have been considered by the council at any time. Auditor Richardson and ex-Chief Davidson would not accept the position if it was offered them, and Superintendent McLean, while making no definite statement, intimated that he was not looking for a position of that nature. Other names have been mentioned, among them being James McGeorge, Thomas Bellamy and J. C. Dowsett.

(Continued on Page Eight.)

CASTS ASIDE OLD TOGS, DRESSES UP AND LOOKS BETTER

City Takes on Clean Fresh Appearance as Result of Activity of Citizens Who Have Pride in a Greater Edmonton

An unprecedented spirit of activity pervades the city today both in the residential and business sections. Ever since dawn citizens of all ages could be found, armed with rakes, hoes, spades, and all the other implements necessary in property cleaning up their lawns and gardens. Throughout the city, where a week ago yards were a heterogeneous mass of tin cans, old shoes, blocks of wood, boxes, etc., there are now to be found five carefully raked, gardens and lawns, and all with all the varieties of garden "sauce" which delight the amateur gardener, the rubbish piled in neat heaps,

and householders standing by with an air of satisfaction covering every line of their countenances. At morning the city scavengers have been scurrying to and fro removing the rubbish which has been collected and by the time they complete their labors a mass of garbage as high as the tower of babel will be found at a heterogeneous mass of tin cans, old shoes, blocks of wood, boxes, etc., there are now to be found five carefully raked, gardens and lawns, and all with all the varieties of garden "sauce" which delight the amateur gardener, the rubbish piled in neat heaps,

WOULD PROTECT TIMBER RESOURCES NORTH COUNTRY

RECOMMENDATIONS EMBODIED IN REPORT TO THE CANADIAN FORESTRY DEPARTMENT—O'CONNOR IN EDMONTON EN ROUTE TO NORTH.

Words of the great Peace river country with respect to protection of the vast timber resources along the banks of the Athabasca and Peace and tributaries, will be the subject of an exhaustive report to be made by L. O'Connor, of the Canadian forestry department, who is leaving Edmonton for the north country.

Protection of the timber in the Peace river is a matter which is only now being taken up actively by the department of the interior. Attention for attention to the needs of the north in this line has been going on for some time, and only recently J. K. Cornwall, M.P.P., visited Ottawa to impress upon the minister of the interior the

WILL BUILD BIG SUMMER RESORT

There is to be a big summer resort on the Canadian Northern railway at Lac Ste. Anne, west of Edmonton about 40 miles.

The Canadian Northern main line touches the lake at the southwestern end, and passes through the old settlement of Lac Ste. Anne. The new Peace river line, which was rushed ahead, there, passes near the northern end of the lake.

The Picture That Caused All the Trouble

Here is a copy of the bank account published in the Toronto Telegram and stated by the World to be Frank Oliver's bank account.

LIBERALS DECIDE ON ADJOURNMENT FOR TWO MONTHS

May 23rd Fixed as the Date to Adjourn and July 18 as the Time for Resuming Business

Ottawa, May 5.—The liberals in caucus this morning decided that after disposing of the general business before the house, an adjournment will be made on or before May 23rd and to resume business on Tuesday, July 18th, which would mean an adjournment of exactly two months. It is expected that by May 23rd the session programme apart from the reciprocity agreement and perhaps a portion of supply will be put through. In the case of items not voted in the interim supply bill sufficient to cover a period of several months will be voted. The opposition, it is said, will undoubtedly agree to this arrangement.

A great many of members on both sides on both sides of the house would have preferred a prorogation and an extra session in July, because of the expenses to which they will be put by being compelled to return to Ottawa in July. A prorogation, however, would be disadvantageous for the government because it would mean a fresh start would have to be made on the reciprocity agreement. With an adjournment of two months, if the reciprocity agreement will be resumed just where it is left off.

CENTRAL ALBERTA WILL HAVE PLENTY PUBLICITY

EXECUTIVE COMMITTEE OF PUBLICITY LEAGUE WILL MEET AT BOARD OF TRADE TO ARRANGE FOR WORK.

On Tuesday next, if the committee can be gathered together at that date, the first meeting of the executive committee of the Central Alberta Publicity league will be held in the offices of the board of trade. A meeting of the league was to have been held this morning for the purpose of deciding upon the methods of the publicity campaign for Central Alberta, but many of the delegates found it impossible to be present.

The executive committee consists of representatives of the various boards of trade who have combined with the Edmonton board for publicity purposes. Among members of the committee are J. P. Davidson of Red Deer, S. E. Tobin of Leduc, M. F. Dunham of Camrose, Frank Wilson of Vegreville, R. B. Douglas of Strathcona, A. C. Fraser and A. H. Harrison of Edmonton, with Secretary Fisher of the Edmonton board of trade as league secretary.

THOUSANDS SIGN PROTEST PETITION

Slightly in excess of four thousand signatures have been secured to the petitions against colored immigration which have been circulated in the city during the past week. Twenty-three of the twenty-five petitions were called in by Secretary Fisher of the board of trade yesterday, and last evening they were forwarded to Ottawa. The remaining petitions will probably be forwarded today, bringing the number of

signatures to a total of five thousand. A number of petitions are in circulation in Strathcona and these will be forwarded to the prime minister in the course of a few days.

SUPERINTENDENT MACLEAN DENIES THE REPORT

"Regarding the statement made in the morning papers that I am slated for the commissionership," said Superintendent MacLean at noon today, "I thank some of the reporters must have been given a wrong tip. I have never asked for promotion to the commissionership and it has never been offered me. As far as I know there is absolutely nothing in the story."

## FORMER EMPRESS BEAUTIFUL AT 85

RETAINS MUCH OF THE YOUTHFUL  
CHARM THAT WON ADMIRATION FOR  
HER IN DAYS OF EMPIER NAPOLEON

London, May 5.—The ex-Empress Eugenie, whom some writers are in the habit of speaking of as the most tragic figure in all modern history, reached her eighty-fifth birthday anniversary today and the occasion was marked by the receipt of congratulatory messages from kings and queens, statesmen, churchmen, scientists and other persons of distinction throughout Europe. In spite of her age she is in good health, and takes an active interest in everything around her.

Of Scotch and Spanish extraction, the former empress, in spite of the series of dramatic events which have colored her life, is still a remarkably handsome woman, and she has still much of the charm that stirred the admiration of the spectators of her marriage with the Emperor Napoleon in Notre Dame.

Since 1880 Eugenie has resided at Farnborough Hill, Hants, in a great house, surrounded by venerable trees. Prior to taking up her residence at Farnborough, she had lived at Chislehurst, where the emperor died, and which place she left because she could not obtain the land there for the building of a mausoleum for her dead. Some twenty-five years ago she erected the buildings, known as the church and abbey of St. Michael, which in 1896 she transferred to the monks.

Standing on the crown of the hill opposite her present residence, Eugenie is able to see the place of separation of her husband and son from her windows. To the mortuary chapel she goes daily to pray. There is an altar, before which a monk says mass, with only one mortal auditor. Every one else is excluded while the unhappy wife and mother is within. A semicircular is placed at the foot of each of the sarcophagi wherein lie the remains of Napoleon III, and the Prince Imperial, and first in one and then in the other the ex-empress often sits alone in prayer. Both tombs are decorated with floral wreaths and scattered flowers. Of the latter she is the most numerous, and some of these are taken away as mementos by the visitors who are admitted when the ex-empress has gone.

The mausoleum was built by Eugenie at a total cost of over \$500,000. Behind the magnificent altar, on either side of which are the two granite sarcophagi, is a small door leading into the Benedictine abbey and over into the Benedictine abbey and over into the Benedictine abbey.

## A WOMAN'S BACK.

Not One Woman In  
Twenty Has a  
Strong Back.

The kidneys are to blame nine times out of ten.

When the blood isn't properly filtered the poisons that ought to be carried off by the kidneys are sent back through the system, and it's hardly to be wondered that backaches and lame backs come to make life miserable.

Doan's Kidney Pills are a specific for all kidney troubles. They begin by expelling all the poisonous matter from the kidneys, and then heal the delicate membranes and make their action regular and natural.

Mrs. A. H. Hutton, Jr., McCreary, Man., writes: "Two years ago last spring I had a very severe pain in the small of my back. When I would rise it seemed as if my back would break. My kidneys were very badly out of order, and I would have to get up three or four times during the night. I took one box of Doan's Kidney Pills and they effected a cure."

Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by the T. M. Doan Co., Limited, Toronto, Ont. If receding direct specify "Doan's."

this an arched monument has recently been built into the wall. It was designed by French architects, and is of stone throughout. This new work forms the framework of a tomb which is unique in England, if not in the world. In this tomb the former empress will be interred when in the fullness of time she comes to die.

Sarah Bernhardt will appear in Paris in "Everywoman."

## Hair Health

IF YOU HAVE A SCALP OR HAIR  
TROUBLE, TAKE ADVANTAGE  
OF THIS OFFER

We could not afford to so strongly endorse Huxall "93" Hair Tonic and continue to sell it as we do, if it did not do all we claim it will. "Should our enthusiasm carry us away, and Huxall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

We warrant you that if your hair is beginning to unaturally fall out or if you have any scalp trouble, Huxall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness.

Our faith in Huxall "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded if it does not do as we claim. Two sizes, 50c and \$1.00. Sold only at our store—The Huxall Store, A. Archibald.

## The Capital Bakery

(First Floor)

## AMUSEMENTS

From light cheery vaudeville to so-called sentimentality is the chance this week of bills at the Empire theatre, and it proved sufficiently diverting to draw a capacity house last night when "The Squaw Man" was presented for the first time. When the curtain arose for the initial act probably most of those present settled back in their seats with a feeling that the performance would lack in interest. But they were agreeably disappointed.

Threads of romance, pathos and intense human interest run all through the story of a young Englishman's almost criminal sacrifice to protect the wife of his cousin, and there was not a dull moment from beginning to end of its vivid recital. The cast is especially good—one of the strongest ever seen in Edmonton. The various characters are particularly well adapted to the roles they assume. The play is exceptionally fine and one worthy of the best patronage local theatregoers can give.

### CRICKET OPENS

London, May 5.—The county cricket season opened successfully this week. Noting winning from the M.C.C. by 65 runs and Surrey beating Warwickshire by an innings and 45 runs.

## A Pound Lasts Longer

The first thing a woman notices when she starts using Blue Ribbon is its better, richer flavor. Then she notices that a pound lasts longer. A pinch of Blue Ribbon makes much more tea than is given by a larger amount of other tea. And it is guaranteed satisfactory. Your grocer will refund your money if you do not find Blue Ribbon superior to the tea you have been using. Merely return the unused portion.

### SASKATCHEWAN MAN UNSUCCESSFUL IN EFFORT TO SHUFFLE OFF

Saskatoon, May 5.—J. Marlow, who lives on Nineteenth street west, between Avenue B and C, made a determined attempt to suicide today by taking an ounce of chloroform. He is well known on the west side, and has been subject for some time to epileptic fits. This morning at about 11 o'clock he evidently felt one of his old attacks coming on and seized a bottle of chloroform which was unopened, drew the stopper and drank a large dose, hitting his children good-bye when he took the draught. The doctors who were called, however, managed by the prompt administration of antidotes to save his life.

### PRISONERS WHO ESCAPED FROM BARRACKS ARE CAPTURED

Lethbridge, May 5.—Lewis and Reid, who escaped from the barracks last Sunday morning, were captured last evening at Shelby, Mont., by Sergeant Adams.

Subscriptions for the publicity fund were collected today for the first time in the present campaign, nearly \$6,000 being subscribed. The amount will likely double.

The Y. M. C. A. will hold a bazaar sale on March 20, 22 and 23.

P. Armour, secretary treasurer of the Edmonton football association has signified his intention to resign. He will be succeeded by A. Blair Peterson, 603 Fraser avenue.

Mrs. M. White of 763 Sixth street, will leave the city tomorrow on an extended visit to England.

## Real Snaps

**NO FOUNDATION FOR THE CHARGES** SENTIMENT IN MEDICAL CIRCLES REGARDING THE GIBBISON-WHITE-LAW CONTROVERSY

With but three exceptions, the medical men of the city have come to the defence of the city health officer and unqualifiedly announce that so far as they are aware, the isolation hospital is conducted upon the most approved lines, and that the attack made on the city health department by Dr. J. A. Gibbison was unfounded for and without foundation.

In a letter to a morning paper, Dr. Munro states that in his opinion the reason for the attack on the health department is due to the fact that on Sunday last the complainant and health officer had an altercation with the result that when the former used derogatory language in speaking of the nurses at the isolation hospital he was ordered to get out and walk. The attack on the health department and isolation hospital was published the following morning.

All of the medical men interviewed last evening stated that they had no complaints with respect to the manner in which the isolation hospital is being conducted and neither had any of their patients complained to them. To the contrary, all those who had been in the hospital spoke highly of the way they were treated and the manner in which the institution was conducted.

With respect to the statement that he had visited the isolation hospital and then hung up his gown in the measles ward, Mr. White states that such is absolutely untrue, as can be proven by the nurses in both of these wards.

**WOMEN PARADE IN NEW YORK** SUFFRAGISTS PREPARED TO HOLD DEMONSTRATION OF NUMERICAL STRENGTH

New York, May 5.—Plans for the great suffrage parade down Fifth avenue tomorrow afternoon are all completed. The promoters declare the demonstration will exceed anything of the kind ever given in this country. The evolution of woman from the sedan chair days to the present athletic age will be shown in the procession, with trades and politics brought in.

Leading the procession will be a big banner carried by three young women representing the organizations having the parade in charge, the Woman Suffrage Party, the Woman's Political Union and the Collegiate Suffrage League.

Following the leading banner will come a life and drum corps and Scottish pipers. The first part of the procession will represent the early days and the women of that time. Floats will show women in the earlier home industries, weaving and spinning, which have now been taken from the home and put into manufacturing plants.

Women in industrial pursuits will follow in squads, and next will be women farmers, actresses, artists, musicians and writers. A woman's band will march next, leading the business women, social workers, women who drive their own motor cars, aeronauts and explorers, and a woman balloon maker, who will carry a balloon instead of a banner.

College women will march in caps and gowns, and there will be women ministers as well as women doctors, lawyers, engineers, architects and teachers. There will also be a representation from the Men's Equal Suffrage League and a delegation of girl suffragist makers who will carry a crimson banner draped with black.

Women in industrial pursuits will follow in squads, and next will be women farmers, actresses, artists, musicians and writers. ### Public Not Compelled To Give Confidence Without Explanation

Speaking for Frank Oliver, the Bulletin explains many reasons why the minister of the interior does not necessarily have to explain where the money came from.

If Frank Oliver is cornered like a rat and caught with money in his possession, the source of which he is afraid to explain, there is no law to stop him from taking refuge behind a lot of high-sounding sophistry about the dignity of the Dominion house being violated by the query "Where did the money come from?"

But if he refuses to explain, no one is compelled any longer to place any more confidence in him as a public man.

### Commission Board Must Be Enlarged To Escape Bouillon

The notice of motion given by Alderman Lundy which forecasts the appointment of two more commissioners shows the way out of the difficulty into which the idiosyncrasies of Commissioner Bouillon and a judgment of the supreme court have thrust the city. As the thing stands now, the municipal machinery is working so slowly that the citizens are certain to suffer the consequences of procrastination next winter.

Mr. Bouillon has his mind made up to buy some sort of freak machinery which no mechanical man or expert will recommend. Mr. Bouillon, in the spending department, lies in wait for the council to vote the money with the avowed intention to buy the class of machinery which he has decided on the moment the city council ratifies the bylaw.

The council, therefore, dare not pass the bylaw lest the city's \$10,000 commissioner run them into something like Keely did when he bought the city the gas producer; and in the meantime the season when the machinery should be in the process of manufacture and installation is slipping by, with the certainty that the city will be short of power and light next winter.

At the same time, as the judgment stands, the council cannot get rid of Bouillon, for the reason that any move to establish his unfitness would indubitably precipitate an appeal action by Bouillon's friends, in which it would be claimed that the council were actuated by motives of personal profit, but in which the real motive would be to tie the council's hands.

This being the case, there is only one thing left for the council to do if the city is to be saved from a shortage of light and power next winter, and that is to relegate Bouillon, by the same method that Lloyd-George threatened to apply to the lords, into a position where he would be powerless to load the city up with any mixed pressure freaks or to prevent the council from carrying out the will of the people.

In selecting the new members for the commission board the only question about which the council need concern itself is whether or not the men selected for the position are competent men.

### Senate Appointments Not in Line With Popular Demands

Next to its existence at all, probably the worst feature about the senate is the fact that most of the appointments are made not in consideration of the usefulness of the man appointed, nor of his representativeness, but in consideration of the necessity to provide a place for him.

So, when the government appoints Mr. Forget to succeed Dr. Roy, the public feels constrained to believe that so far as the country which he is to represent is concerned, the appointment might about as well not have been made.

It is no depreciation of the valuable services rendered by Mr. Forget in the early territorial days to say that a better selection for senatorial representative might have been made. The man appointed should at least have been an Alberta man, which Mr. Forget is not, and as the necessity for the appointment arises through the fact that an Edmonton man has gone to the Canadian office in Paris, it is only right that the appointee should have been an Edmonton man.

Undoubtedly Canada owes Mr. Forget the gratitude which is the due of a time-expired man, but there are other positions except that of senator for Alberta into which he might have been placed without seriously interfering with the progress of constitutional government.

## JUST PARAGRAPHS

While the Bulletin is worrying so much about the "principle," will Mr. Oliver kindly tell who got the interest?

The Journal proposes to get out another injunction to prevent the city council from getting the summer's work done.

Frank Oliver's idea of honesty seems to be about the same as the Maybray gang. Make it look like a square deal on the surface and take a chance with the police.

The Bulletin calls it an unheard of "principle" to demand where the money came from. That is just the Bulletin's difficulty. If the "principle" had been unheard of there would never have been any necessity to explain.

The Calgary Albertan says the Oliver bank account was not correctly quoted. Sort of sounds like as though the Calgary paper had had a peep into the minister's cache.

It was probably thoughtlessness on Mayor Armstrong's part to name that clean-up day in Edmonton at the same hour and the same day that the house in Ottawa was making arrangements for the Oliver investigation.

## NOTED MEN TALK PEACE

Baltimore, May 5.—Among the prominent speakers at the sessions of this, the final day of the National Peace Congress, were President Brooks of Baylor University, Professor Chilton of the University of Tennessee, President Grisham of Tulane University, Professor Dutton of Columbia University, Dr. Mitchell of the University of South Carolina, Dr. Albert Shaw of New York, President Sharpless of Haverford College, and Dr. James Brown Scott, secretary of the Carnegie Peace Foundation. Former secretary of State John W. Foster occupied the chair this afternoon.

## "PIMPLES" Broke Out All Over Her Face

Pimples are caused, almost entirely, by bad blood, and there is only one way to get rid of them, and that is to get at the seat of the trouble by using a good reliable blood purifying medicine.

Burdock Blood Bitters has been on the market for 35 years, and is one of the very best medicines procurable. After using it you will find that the pimples have disappeared, and you will have a beautiful clear complexion.

Mrs. Robert McNab, Indjorps, Ont., writes: "I am greatly pleased to report the benefit I have derived from the use of Burdock Blood Bitters. About a year ago I became so weak and run down I could scarcely walk, and pimples broke out all over my face. I tried one thing after another, but nothing seemed to do me any good. I was advised by a lady friend to try B. B. B., and before I had used one bottle I felt it was doing me good so I used three bottles, and I am now well and strong, and the pimples have all disappeared."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## INITIAL STEPS TO AMALGAMATE

That a uniform system of taxation be adopted throughout the greater Edmonton that is to be formed by the amalgamation of Edmonton and Strathcona, the assets of both the present cities being taken over, and taxation levied on the basis of a common assessment, was one of the important recommendations of the amalgamation committee which met in the council chamber, Strathcona, last evening. The committee also adopted a resolution advising that representation in the common council shall be proportionate to the population of the two cities, with a proviso that the Strathcona of today shall be represented by not less than three members.

At the first joint meeting of the amalgamation committee last evening sixteen members, including Mayors Armstrong and Davies and a number of aldermen of the two cities, were present and took part in the deliberations. The committee constituted themselves a permanent organization to carry on negotiations looking to the uniting of the cities north and south of the Saskatchewan, and as two separate and distinctive committees they

now cease to exist. A. G. Fraser, who presided over last evening's session, was elected permanent chairman of the amalgamation committee, with A. A. Campbell of Strathcona, as secretary. The press was excluded from the session.

## CASES FOR TRIAL DISTRICT COURT

Judge Noel will hold district court at St. Albert tomorrow, when the following civil cases come up for trial: Robertson vs. Parcombe, Vanderplaat vs. Vanderboute, McDonald vs. Byrne, Fernan vs. T. Kopp, Spence vs. Lefleur, Dawson vs. Aulion, Borne vs. Vanderplaat.

On Monday the court will sit at Riviere qui Parle, when the civil cases of Noyes vs. Smith and Redwood vs. Essie will be tried.

Frank H. Gasson, formerly of Toronto, has come to Edmonton to be resident manager of the General Accident Assurance company of Canada and the Canadian Casualty and Boiler Insurance Co. Mr. Gasson has taken office quarters in the Union bank buildings.

## AUTO OWNERS TO TEST STATUTE

Requiring Them to Provide Machines With Sidelights and Numbers.

The first attempt to enforce a clause in the statute for the regulation of traffic on public highways, passed in 1906, and providing that all automobiles must be equipped with sidelights on which the license number is indicated in letters not less than five inches in height, is now being made by the police department, and this morning a charge was laid against A. Violette, for alleged infraction of the traffic law. Mr. Violette admitted in the police court this morning before Magistrate Cowan that it had never been his practice to carry sidelights at the front of his car, intimating the license number, and Magistrate Cowan reserved his decision until tomorrow morning at 10 o'clock.

A couple of weeks ago summonses were prepared for service upon sixteen owners of automobiles in Edmonton, but were never delivered. There is not a motor in the city who carries sidelights such as are required by the 1906 statute, and should a conviction

be obtained against Mr. Violette to comply with the law it will be necessary for the automobilists to obtain a new type of lamp, of special design, and rather than comply with what is regarded as frivolous legislation, it is altogether probable that the case will be appealed to the supreme court of Alberta.

The newly formed automobile club will probably take the matter up. If the law be upheld, the manufacturers of automobile lamps will be compelled to change their designs for the particular benefit of Alberta automobilists.

C. P. Markor, provincial dairy commissioner, is in the city today, and states that government creameries will soon again be in operation for the summer season. There are three new creameries this year, one at Meeting Creek, and the others at Gardston and Goehring.

The opening ceremony in connection with the new high school, Churchill avenue, will be performed this afternoon at 3 o'clock by Hon. A. L. Sifton, premier of the province. Addresses will be delivered by the premier, by the attorney-general and minister of education, Hon. C. B. Mitchell, and by various other speakers. Mayor Armstrong, members of the city council and of the various boards of school trustees throughout the province, have been invited to be present.

## REAL ESTATE BULLETIN

Enquiry is strong, on behalf of outside capital, for Jasper Avenue properties and warehouse sites.

In residential lots, the principal demand is close in, for building purposes, comparatively little speculative buying taking place.

In houses, the demand is very steady, mainly in the West End, as usual, but with some enquiry in the East End, as well.

We have numerous good things still on our lists in all lines and localities, and shall be pleased to answer any enquiries and to show any of these properties on request.

### ALBERTA PARK

One feature of today's business was the steady enquiry for this desirable suburban property, several trips being necessary to take out those who were interested.

We hope to have the pleasure of taking you in the near future, as we are desirous of seeing all our clients supplied with one or more blocks of this property, which is daily becoming more valuable.

### Today's Offerings Business Properties

A double corner on Jasper Avenue, opposite C. P. R. \$85,000  
A corner on First Street, north of tracks, 100 ft. on First by 168 ft. on side street; per foot \$400  
A double corner on First Street, in Northwood \$5,000  
A lot on Namoy Avenue, Bk. 13, R. 10 \$4,000

### Residential Properties

A 7-roomed modern house on corner lot, 12th Street, north of Jasper \$6,000  
A 7-roomed modern house on 13th Street, north of Jasper \$4,500  
An 8-roomed modern house on 15th Street, south of Jasper \$7,200  
An 8-roomed modern house on 7th Street, south of Jasper \$7,000  
A 6-roomed modern house on 4th Street, near Vermilion \$3,000  
A lot in Groat Estate, with small house \$18,500  
A double corner in Groat Estate, with 7-roomed house, upstairs unfinished \$28,500

### Farm Lands

A section of good open land with some improvements, 1 mile from Daysland; per acre, only \$23  
A fractional half section on Saskatchewan River, about 15 miles S. W. of city; per acre, only \$8  
A quarter section of good land near Cooking Lake, on Edmonton Trail, 100 acres clear; per acre, only \$10

### Scrap

We have on hand a full supply of South African Veteran Scrap, all guaranteed sound, at current prices.

We also have a limited supply of Half-breed and Red

### Loans

River Volunteer Scrap. We shall be pleased to have applications for loans of any amount on city or farm property, and can also negotiate sales of agreements for sale.

### TRIO OF INSPECTORS OF CREAMERIES NAMED

(Continued from page one)

tion of government creameries only. The new act also provides for testing cream by weight instead of by measure, which will give the farmers a better deal.

The duties of the new inspector will be as follows:

1. To examine into the sanitary conditions of creameries, cheese factories and buildings and premises used for dairy purposes by any patron recommended by the methods of manufacture and production employed by them.

2. To recommend improvements and charges that may seem necessary to bring conditions and methods in conformity with approved practice and the requirements of the Dairyman's Act.

3. To prepare, in triplicate, and upon forms furnished for that purpose a report covering each such examination embodying therein the recommendations made.

4. To have a copy of such report with the person in charge of the place inspected, to retain one copy, and to forward the original to the Dairy Commissioner who will direct the work of the inspectors.

**PRESS OF MUNICIPAL BUSINESS NECESSITATES APPOINTMENT**  
(Continued from Page One.)

Every member of the council is anxious to have the power machinery installed as early as possible, as any further delay must mean that there would be a shortage of power this winter. The aldermen believe, taking into consideration the reports submitted by Engineer Parsons, Superintendent Hoffman and other engineers of the city, that nothing less than a 200 k. w. machine should be installed this year.

Commissioner Houston contends that all of the machinery at the power house can be made to run when needed and that there is no necessity for installing more than a 1200 k. w. unit. It is on this question that there is no possibility of an agreement being reached. The aldermen contend that having received an expert's advice and being directly responsible to the people, that they should order a machine which would ensure an abundance of power. If there was a shortage they would be the ones who would have to take the blame, and not the commissioner.

sloners. With two more commissioners appointed the entire question will be reopened. The reports of the commissioners, engineers, and the expert employed by the council will be thoroughly dissected and then a decision reached. Whatever decision that may be reached the council will live up to it and pass the money bylaws in order that the power machinery may be ordered at once. If it can be proven beyond the shadow of a doubt that there will be plenty of power this winter by installing only a 1200 k. w. machine, as recommended by commissioner Houston, this sized unit will be installed. If the commissioners find that a larger unit is needed the council will act accordingly.

Until after the council meeting on Tuesday night, however, nothing can be done. The money bylaw has not been passed and neither the commissioners nor the council can place any orders until this is done.

The rumor that an injunction would be asked for to prevent the council from appointing two new commissioners has but little foundation. According to the charter the council has command of the situation and can appoint as many commissioners as they deem advisable.

**CONTRACTORS CRITICISE WORK**  
(Continued from Page One.)

These methods, the contractors contend hamper them in their business and may mean serious loss to them. It has been suggested that if the building inspector must sign the permits before work is to be commenced on a building that he should stay in his office and leave the outside work to his subordinates.

The commissioners have already taken the inspector to task for allowing the erection of buildings contrary to the building bylaw and he will in all probability be called upon to justify his action to the council. There are a large number of buildings which have been erected of late which do not in any way comply with the building bylaw. Some of these the inspector has reported to the council for advice but in very few cases has he acted under the powers given him by the bylaw and stopped construction before it had proceeded to a point where the tearing down of the building would not mean serious loss to the contractor.

### A Defence Which Would Clear Anybody Except Bill Miner

The defence furnished by Frank Oliver that the public has no right to know where he got the money, is a defence which would clear almost any holder of illegitimate funds except Bill Miner.

When Bill Miner goes out to get the money he does it in public. A whole train load of people, if they are not too badly scared, can look at him acquiring the swag.

But with the single exception of the highwayman, th's kind of money is never acquired in public.

Picture Abe Reuff, for instance, standing in the middle of Market Street at noon hour and taking money out of the hand of Gallagher or some other Harriman emissary. The idea is too ridiculous for consideration.

Yet the Oliver defence is to the effect that funds which he may get possession of while nobody is looking, once safely deposited to his private account, should be immune from investigation and he himself should not be subjected to such an indignity as an invitation to explain where he got the money.

The most remarkable feature is the fact that Frank Oliver himself is the man who could, if he would, make the statement that would clear the whole business up.

Frank Oliver could tell the public where the money came from.

The fact that he refuses to do so, but instead yammers about the dignity of the house of commons being violated by such a demand and talks of the sacred right of a public man to receive secretly large sums of money from sources which he refuses to designate, shows very plainly that there is a reason why Frank Oliver will not tell where the money did come from.

If there is no reason why he should not tell the source of his supply, the adjournment of the Dominion house will give him the opportunity to come back to Edmonton and explain from the public platform the items of his bank account.

### Coal Miners Entitled to Square Deal

Against the opposition of the coal mine operators, and only after a vigorous fight, the coal miners of the Crows' Nest Pass have managed to get the sessions of the conciliation committee thrown open to the public and to the press.

In this province of Alberta there has been a feeling for a long time that the coal miners of the Pass were not being very well used.

The circumstance that the mine owners did not want to let the press into the sessions of the conciliation board is pretty conclusive evidence that such is the case. Had they not feared that the men would present a case calling for public sympathy and demanding redress they undoubtedly would have had no hesitation in letting all the newspaper men in the country in to hear the story.

All fair minded persons will hope that the coal miners come out of the controversy with a guarantee of fair living conditions.

If, with the enormously rich coal resources of the Crows' Nest at their command, the coal operators cannot afford conditions which make life for the miners worth living, the coal mining business is a failure and the mines might better be closed down.

After all is said and done, that is what the coal mines and all the rest of the resources are for, to increase the sum of human happiness, and the people entitled to make the first draught are the men whose lives and labor go toward the production of the wealth therefrom.

### Students of Sociology Will Watch Outcome of Unemployment Bill

Following the adoption by the British nation of the principle that the unearned increment is something on which the nation is justified in levying a tribute of taxation, comes now Lloyd George back to the British house with a measure to ensure workingmen against unemployment.

In this far west the question of unemployment is one which does not enter very seriously into practical politics, and Taft's "God knows" is the only answer that the question, has ever yet received in United States; but in the older countries it is a very acute question, and Lloyd George is apparently going to lead in this as he led in the increment tax.

For a government to accept the principle that the country in which a man is born owes him the opportunity to make a living is the most radical departure that has been attempted in practical politics in a thousand years, and students of sociology will watch with interest the outcome of Lloyd George's legislation.

#### JUST PARAGRAPHS

The Dominion parliament has decided to adjourn long enough to let the king be crowned and then come back and talk some more on reciprocity. One of the advantages of talking about reciprocity is that nobody outside of the house bothers much about what they have to say inside.

If Frank Oliver could come back and knock a home run with the bases full like Johnny Brennan, he might still have a chance to get a hearing.

#### EXPLAINING AWAY

The Hon. Frank Oliver has been in Edmonton. That is his constituency where he lately had a majority of about 3000. Now since his visit there last week he has been in Winnipeg on his way home. It required a whole column in the Winnipeg Free Press for Mr. Oliver to explain why the newspapers have been full of innuendoes and slanders since he received in his own seat and town. It also required some score or so of lines from Mr. Oliver to explain why he, a minister of the Laurier government, had to stand up before 5000 people in Edmonton and call another man a "liar." Now, it is true that the Free Press, true to its traditional love for Mr. Oliver, published all this away back on the fourteenth or fifteenth page. But the necessity for explanations upon Mr. Oliver's part is the surprising thing. Certainly Edmonton must have done something pretty smug when the redoubtable Frank has to come out and explain. He explains, that when a man accuses you of certain things, and goes on for two years accusing you of these things while you say nothing at all, that therefore at the end of the two years you are justified in standing up before 5000 people, ladies present, and saying: "You are an absolute liar!" The fact that you may be a cabinet minister makes your position that much more gentlemanly and a touch of pallor to the situation. In a kind of aside, Mr. Oliver mentions the fact that he had been asked to speak at Bradman's Corners, at Pumpkville, at Alkali River, Calgary and a few other centres, but had no engagement to speak at Edmonton until the "Conservative" paper had said that he had a red flag right in his ministerial face, twice. Then, he adds, in spite of the Grit leaders up there he resolved to do and dare. Poor old Frank. How unlike the old days when the Edmontonians used to sit at your feet and applaud when you called other folk liars. In fact, was it not your elegant forcefulness at using the term towards the Tories, together with certain other expressions in the vocabulary of some real old timers in your district, that first recommended you as a coming Grit politician? It is really too bad that the Edmontonians are becoming so highly civilized that they need not expect Frank Oliver to control his forcefulness. It is belittling clipping Samson's locks. And now, Frank, since you are to be sent to Sunday school, please have your western mus-tache trimmed to match and then, in spite of Kipling, East will have met West. But it may cost you your seat in the house.

#### NEWS FORECAST FOR THE COMING WEEK

Washington, D. C., May 6.—The progress of the peace negotiations in Mexico and the proceedings in the national legislative assemblies of the United States and Canada with reference to the proposed reciprocity between the two countries will probably continue to be headline attractions for the coming week.

President Taft has accepted an invitation to attend the dedication of the memorial to the sailors of the Revolution, the gift of the General Society of the Daughters of the Revolution, which is to take place Thursday at the United States Naval Academy at Annapolis. The event will be a feature of the annual convention of the society in Baltimore.

The President has also accepted the invitation of St. John's Lodge of Newark, N. J., to attend a dinner Saturday night in celebration of the 14th anniversary of the lodge. He will also speak the same night on the subject of criminal law at a dinner New York City. The following day the President will go to Harrisburg, Pa., to address the delegates to the convention of the Brotherhood of Railway Trainmen.

To observe the twenty-fifth anniversary of his being created a cardinal and the golden jubilee of his being ordained a priest, the New York Catholic club will give a reception to Cardinal Gibbons at its clubhouse Wednesday evening.

King George and Queen Mary are to hold the first court of their reign Tuesday night. The court will be entirely official and diplomatic. On Thursday their Majesties will go to Crystal Palace to open the Festival of Empire, which is to be one of the notable attractions of the coronation season in London.

President Fallieres of France is to go to Brussels Monday for a visit of several days as the guest of King Albert. The visit of the French executive is to be made the occasion for a round of notable functions of entertainment, including a banquet, a gala performance at the opera, and drives to places of interest in and about the Belgian capital.

Many conventions are scheduled for the week. Among those of general interest will be the biennial convention of the Order of Railway Telegraphers, in Toronto; the convention of the Brotherhood of Railway Trainmen, in Harrisburg, which will be addressed by President Taft; the biennial of the Order of Railway Conductors of the United States, Canada and Mexico, at Jacksonville, Fla.; the annual convention of the National Federation of Automobiles, in Atlanta; the annual convention of the Southern Wholesale Grocers' Association, in Atlanta; and the annual gathering of the National Federation of Gospel Missions, in Washington D. C.

The roadway to the top of the Royal Gorge of the Arkansas River, taken from the solid rock of the mountains by years of labor, and from a scenic standpoint one of the most wonderful roadways in the world, is to be formally opened Friday by Governor Shaf-roth of Colorado.

Winnipeg, May 6.—H. L. Fairbairn, at present in Saskatoon, has been appointed C. N. R. assistant passenger agent, with headquarters at Toronto.

# Burdock Blood Bitters

IS THE BEST  
SPRING MEDICINE

It will cleanse the blood of all poisonous and waste matter accumulated in the system during the long winter months.

It has been used by thousands every spring for over thirty years and has never failed to give satisfaction.

# Burdock Blood Bitters

## FADS AND FASHIONS

New York, May 6.—With the approach of warm weather lingerie blouses and smartly tailored short-skirted suits are commanding more and more attention. This, however, does not mean that the interest in costume blouses is on the decline. The vogue of the blouse on silk with the coat and skirt of wool has endured so long that even the most ardent admirer of the lingerie blouse will not accord it the place it once occupied in an outfit. She will wear it for innumerable purposes, but when she orders her tailored or semi-tailored costume she will order a blouse to match and will confess that, however lovely the lingerie blouse worn with such a suit, she does not feel herself quite dressed in it.

It is true, there are some half and half affairs this spring upon which she may compromise if she will. The idea of combining silk, chiffon or silk muslin matching a suit in color with fine white lingerie material has appealed to some designers and has been worked out very happily in some cases.

The vogue of openwork or other embroidery on linen or batiste, with colored chiffon, is of course familiar, but the new idea is shown in a charming model fashioned of dark blue mouseline de soie below the bust line, while the upper part of the blouse was of fine white linen embroidered in openwork design and trimmed with tulle of the openwork embroidery and with little bands of the dark blue mouseline finely tucked crosswise.

Another blouse of dark tulle over white had an odd shaped yoke and sleeves of embroidered batiste, and there are various models in silk with shallow yokes of lingerie stuff continued down the outside of the sleeve in a band and sometimes, as in some charming models seen, running down the front of the blouse as well. Deep cape collars, sailor collars, Dutch collars of embroidered batiste or linen appear upon many of the colored blouses in silk or sheer materials and some exceedingly good looking models are of silk, chiffon, silk mouseline or tulle combined with white or cream batiste embroidered in color matching the silk.

There has been a slight reaction in favor of soft, sheer but not transparent silk blouses which this spring, one finds more pretty things than usual in the fine crepes, tulle, etc., but when all is said and done, the chiffon, tulle and mouseline de soie are the materials which may be worn over lace, or net, or guipure are affected by very pretty styles and are labor saving devices, though aside perhaps from some original touch in embroidery the summer solution has much individuality and one sees heartily tired of the head of embroidery effects. For practical wear is recommended an overblouse of chiffon matching the suit and rising quite to the base of the throat, so that only a close high collar or a little touch of lace or lingerie is in evidence, and the question of guipure claudes.

lon, as they already were during the past winter. They are worn with tailor-made suits when walking. With these hats, blue, black or white Chantilly lace veils in large figures are still worn.

Very attractive are the tulle torques, prettily draped, on which are placed large white wings, either on the side or at the back. Small belt shapes in white ermine or lace covered with large loops of white watered silk are equally charming.

Falls of lace, lawn or net have taken the place this year of the narrow ruche, without which at one time no collar was deemed complete.

Patent leather belts in black, blue, red, or white are to be a stylish finish for line frocks.

Florence Falkbanks.

## HOME RULE BILL BREEDS DIFFERENCES IN THE CABINET

London, May 6.—The Times says that differences of opinion exist in the cabinet concerning the home rule bill, which has been some time in preparation. It is intended to establish a separate Irish exchequer. The nationalists demand that England at the outset pay the interest on the new loan of pounds of sterling as the next step, a part from the annual subsidy. This question is found difficult. There is also difference of views as to the number of representatives to be retained at Westminster and as to the conditions of their retention.

With black and white striped material there is now used by the leading modistes a touch of cerise. The vogue for this is very decided, and on hats, bows or loops of black and white this brilliant cherry color is generally seen.

Silks in black and white are shown in every shop. For linens, for entire dresses, for underslips in frocks, the black and white patterns are displayed. They lost nothing of their pattern when washed, but can be softened down by the use of milder dyes and draperies in skirts, the stripes will be used in different ways. The stripes on a circle skirt may be cut out to meet at a point at the center seam. Panels using the vertical lines can be adjusted at the back. When the silk is used with distinction the wearer cannot help but profit. The lines of the figure should determine the disposition of the stripes.

On hats there is a decided use of striped ribbon or silk. This is used to trim the hat for morning wear. The black and white silk is used for an immense bow on high turbans or large flat shapes. It need not be alone in its striped glory. A touch of color is given by milliners in a piping or binding of either silk or velvet ribbon. Cerise here is also the choice of the majority. Although royal blue and emerald green are also used for the touch of color that seems to be in demand. Little turbans and small hats are much worn. The helmet shape with loops of velvet, extending at each side, is quite popular. It reminds one of the Dutch headresses of years ago.

White hats are very much the fashion.

## BOUYLTON SAYS COUNCIL'S FAULT

For Shortage of Water Because They Did Not Pass Bylaw.

That the city council is primarily responsible for the shortage of water which has existed in the business section for the past two days was the statement made to the Capital by Commissioner Bouylton this morning. The utilities commissioner contends that had the council passed the money bylaw for the purchase of pumping and power house machinery, that the two new pumps, a six million gallon high lift and a six million low lift, would now be on the grounds and partly installed.

The six million gallon pump which has been in operation for several years is badly in need of repair and although there is no cause for alarm the commissioner states that they would like to see the new machinery ordered at once. A few days ago the utilities commissioner advised a Seattle firm that new specifications would doubtless be prepared and new tenders called for pumping machinery although he did not definitely state in his letter that such would be the case.

"From that it would indicate," said an observer this morning, "that the commissioner has not yet definitely decided the kind of pumps which he intends to install. There are no doubt many ways in which the council, the failure to pass the money bylaw, by his own statement, has nothing to do with it as until he decided on the type of pumps which he intends to install they cannot be purchased. We are responsible to the people for the manner in which their money is spent and if the commissioner had given us all the information several weeks ago, instead of trying to dictate to the council as to how the people's money was to be expended there would have been no difficulties whatever and the machinery could have been on the way to the city by this time."

## CROP PROSPECTS ARE EXCELLENT

In South Country, Says Mr. Glendenning Who is in Edmonton.

"Prospects for a big crop in the south were never better," is the verdict of several members of the legislature from the south who have been in the city this week. Yesterday J. M. Glendenning of Nanton, and Hon. W. A. Buchanan of Lethbridge, were in the city, and today L. M. Roberts, of Fish River, is a visitor. H. L. Shaw, from Stettler, is here having just returned from a trip north to Athabasca Landing.

Mr. Roberts, Mr. Buchanan, and Mr. Glendenning were all enthusiastic in referring to the crop conditions in the south. All the seedling is practically perfect and the outlook is joyful over the favorable weather that has been prevailing.

## STOCKS TO MAKE RECOMMENDATIONS

To Premier Sifton as to Requirements of Peace River Country.

After completing a trip which took them through the Peace River country via the new Edmonton government trail, and around by Lesser Slave lake, Athabasca Landing, John Stoeck, deputy minister of public works for the province, and Jas. K. Cornwall member for Peace River, returned to the city last night.

Mr. Stoeck will make certain recommendations to Premier Sifton, who is also minister of public works, regarding the needs of the Peace River country, and the other members of the delegation, regarding new roads, but what these recommendations will be he declined to state until he had interviewed the minister.

Over a month ago Mr. Stoeck and Mr. Cornwall left for the north, going west over the G. T. P. as far as Edmonton, and taking the Elson trail into the Grande Prairie. From Grande Prairie they went east to Lesser Slave lake, and home by way of the Landing.

When interviewed this morning, Mr. Stoeck continued himself to the statement that things were looking fine in the north, and that there were a large number of settlers coming in. What report he will make on his trip, will be made public when he has consulted the minister.

Mr. Stoeck and Mr. Cornwall will take the Elson trail in good time, finding it in fairly good condition. They did not meet Taft's stage on the way, but met a large number of settlers.

## TO RESUME DRILLING FOR GAS NORTH OF MORINVILLE

For the purpose of resuming drilling operations in the gas wells of the California-Alberta company, 8 miles north of Morinville, Fred L. King, manager of the company, reached the city from Seattle Thursday evening, and has a guest at the King Edward.

Mr. King will at once make arrangements to resume operations at the wells of his company. Last year they reached a depth of 500 feet in one well. This year they expect to reach a depth of from 1000 to 1200 feet.

At the end of the extent of 1000 cubic feet per day was struck in the well of the company last fall, and this is still flowing.

CHILD SELECTION PLANNED

De Kalb, Ill., May 5.—The annual meeting of the Superintendents and Principals' association of Northern Illinois began at the normal school here today with a good attendance. The principal of the program is to be devoted wholly to "an attempt to approach the practical, everyday problems of the child in a scientific way."

THOUSANDS HEAR SECOND CONCERT

Singing of Sheffield Choir Greatly Appreciated by a Very Large Audience.

Again the Sheffield choir delighted beyond measure a great audience of music-loving Winnipeggers. Eloquent of the excellence of the choir was the fact that the choir was packed, for the people are, after all, the best judges of good music both vocal and instrumental.

Winnipeg has on many occasions had the good fortune to import and enjoy music of a high order. It is well known that in the great industrial districts of Lancashire and Yorkshire, a great love and enthusiasm has been generated and developed since the war.

This love of music is not by any means confined to the cultured and the wealthy. It is truly popular. Winnipeg has already had visits from such famous instrumental bands as the Black Dyke and the Besses of Oldham, and the other from Lancashire. Now it is being charmed by the Sheffield choir which provides no doubt a most varied and a higher order, but just the same this splendid choir reflects the musical enthusiasm of industrial England.

Last night's programme ranged from grave to gay, and every music-lover there went away with a happy memory of the humorous and the descriptive chorus, the plaintive solo, the ballad, the song, the play. The songs, solo renderings and choruses were equally appreciated and the choruses were unaltered in their execution.

MEXICAN FOURTH OF JULY.

El Paso, Texas, May 5.—The presidential turbulent condition of affairs across the border did not interfere greatly with the customary celebration of "Vino de Mayo," which is one of the chief national holidays. The celebration commemorates the victory of the republican army at Puebla, May 5, 1865, which event marked the re-establishment of the Mexican republic.

Burr McIntosh is next season to appear in a circus play called "The Lure of the Lotos."

At a meeting of the regular monthly meeting of the directors of the Y.W.C.A. will be held in the home on Third Street at 3 o'clock.

Last evening at 7:15 the 101st Regiment was in parade at the Armoury for drill. The stretcher bearing section and the signalling section participated in the parade.

Mrs. A. H. Murray, of Prince Albert, is paying a short visit to the city as the guest of Charles Sheppard.

# ATHLETES OF AMERICAN COLLEGE ARE VERY BUSY

Harvard Looks for a Very Prosperous Season in Athletic Circles—New Buildings Will Be Erected and Athletic Grounds Improved

New York, May 6.—There should be an air of prosperity and satisfaction surrounding athletics and athletes at Harvard in the near future. Under the new system now taking shape at Cambridge, every detail making for the care and comfort of the members of the various teams will be a matter of routine. Harvard plans to do away with the old varsity club on Holyoke street and build a new structure, which will be used exclusively by the members of the university's athletic teams. The old house, where many Harvard stars have trained, is by far too small to accommodate the material Harvard uses during a year for representation in field and other sports. The old building was first put into commission as a training house two years ago. It has quickly outgrown itself, and now the authorities declare it is inadequate and inconvenient for the proper care of athletes.

The building will be erected at the cost of not less than \$50,000, and will be a memorial to Francis Vardon Burr, captain of the 1908 Crimson eleven, whose recent death was greatly felt at the Cambridge institution. Ground will be broken in a few days and work will be started on the foundation soon. It is planned to have the building ready for occupancy by the beginning of the football season. If everything goes along smoothly this can be accomplished, it is said.

The authorities who have charge of planning the building state that the structure, when it is complete, will be the first training house for athletes claimed by any college. It will be large enough to accommodate all the men in training. It is hoped to provide the needs of the university teams properly with a three-story building. This also includes a basement.

The building will be erected at the northeast corner of the union, between Union and Warren house. Although it is to be attached to the Union, it will not be under the same management. The building will be pretentious in every detail, and the athletes' every want will be supplied. On the first floor there will be a 32 by 42 living hall, a small grill and a hall. A large hall. The second floor will contain two small and two larger dining rooms, a small grill and a hall. The third floor will be installed for the crew, baseball and track men. The freshmen and minor teams will be given reserved

tion on the top floor, where also will be quarters for coaches and others who return to college to help condition the men. The kitchen, store and service rooms will be the basement. The former is to be of the most up-to-date type. As the preparation of food for athletes is an important question, the Crimson's heads intend to provide means whereby food will be properly cooked and made appetizing.

Announcement was also made to the effect that the stadium will be supplied with steel stands as a safeguard against fire. It is said that the athletic committee is unwilling to take a chance with fire again, and to be on the safe side of fire will replace the wooden stands with steel.

A question that is worrying the authorities is the proposed adoption of the new code of eligibility rules. Whether the new rules will be adopted depends on the action of the committee selected to freshen on the matter. The athletic committee at a recent meeting asked the matter over, the result of the conference being the naming of a committee to decide the question.

The committee, which is composed of Dean H. H. Wells, Hyacinthe de Windt, the football manager, and W. G. Garrettson, treasurer of the athletic association, is to meet soon and report its opinion on the new code.

Since most of the managers of the college teams have been appointed by the athletic association, a majority of them are already beginning to outline their campaigns. The distribution of the selection, Harvard and the football tickets has been given over to the charge of three men. On the surface it does not appear to be a hard job to distribute the pastels, but this is one of the ends of football that requires a considerable amount of attention and time.

## "WHITE HOPES" FAST FADING

NO ONE IN SIGHT TO TAKE MEASURE OF CHAMPION JACK JOHNSON—CARL MORRIS NOT THE PERMANENT BIG SMOKE IS GLAD

Boxing, the London weekly paper which deals entirely with the fistie world, sees little that is encouraging in the campaign that has been waged since Johnson defeated Jeffries in the desire of mearthing a white heavy-weight prize back to the title to the white race. Treating the matter editorially in its last issue boxing says: "Mr. Hugh Mulholland would appear to have abandoned at least temporarily, that search for the 'white man's hope.' The Olympic Omce is closed, and though we learn that there is a prospect of our being provided with several other interesting contests under the auspices of the Australian promoter, we don't seem to have advanced much further in our investigations as to the identity of the 'white man's hope' who is to be the crown of supremacy from the colored race."

"Con. O'Kelly started off in promising style, but has been ordered to take a six months' rest, so that we are unlikely to see him in an English ring for some time. We have heard very little about the numerous American discoveries, who with the solitary exception of Jack Lester, Tommy Burns, and would seem to have returned to the country from which they appeared to be emerging. Lester may yet show the goods, but the only man of the mail who looks like fulfilling only hopes is one even more obscure, Bombardier Wells. Wells may or may not succeed in annexing the Lonsdale belt this time, but we feel more satisfied than ever that within a year or two and with the physical improvement which will inevitably come in time we should see a champion of proving himself the best there is."

## WANTS TO TRY FOR EATING CHAMP.

CHAMPION FAMINE BREEDER OF ROCKLAND CHALLENGES FOR FEED CONTEST FOR \$500

Rockland, Mass., May 5.—Thomas F. Curley, Rockland's champion eater, has issued a diet, backed by \$500, to the heavy feeders of the country. He is ready to put himself in a devouring contest against all comers. "His challenge is this: 'I will wager any part of \$500 that I can devour a larger quantity of oysters, or lobsters at one sitting than can any self-styled champion.'"

Surrounded by friendly waitresses, Curley has eaten, five dozen boiled eggs at a meal, devoured thirteen one pound lobsters at another sitting, and on a third occasion put down 100 oysters on the half shell and called in vain for fifty more.

A new catcher's mask has been invented, which prevents the catcher from seeing his eyes crossed watching men on first an effort at the same time. The openings for the eyes are made into one by removing the upright bar.

Connie Mack is strong for the college player. It is said the leader of the champion discoverers, who with the solitary exception of Jack Lester, Tommy Burns, and would seem to have returned to the country from which they appeared to be emerging. Lester may yet show the goods, but the only man of the mail who looks like fulfilling only hopes is one even more obscure, Bombardier Wells. Wells may or may not succeed in annexing the Lonsdale belt this time, but we feel more satisfied than ever that within a year or two and with the physical improvement which will inevitably come in time we should see a champion of proving himself the best there is."

"We want a real good man, too, and we want him badly. With Sam McVey making an almost even break of it with Langford, the four top places must be readily conceded to the representatives of the colored race—Jack Johnson, Sam Langford, Sam McVey and Joe Jeannette. Langford would appear from the reports of his recent fight in Paris, to have been far below his usual form, and McVey is said to have been somewhat out of a year. Still, either could almost certainly have disposed with ease of the very best white man in the world, and the conclusion is not a very satisfying one."

## N. ALLERTON GIVES GOOD ADVICE TO ALL GOLFERS

Golfing Authorities are in Great Muddle Over Rules Which are Hard to Reconcile—English Champion Gives His Opinion of Situation.

Golfers the world over are paying more attention to hoary rules than was formerly the case. Mark Allerton, an English authority, says that the sensible golfer confuses his attention to the doing of each hole of his course in as few strokes as possible, and has little or no interest in the minutiae of the game. But at least even this sensible person will have to take an interest in golf politics, for the most recent development directly concerns what is a most popular form of the game. Hitherto the powers that be have refused to recognize "hokey."

The rank of "hokey" has brought him respect from St. Andrew's. When we have engaged in hokey competitions we have done so under a set of rules recognized by the royal and ancient club. Recently, however, powerful unions, anxious that hokey play should have some sort of official recognition, made representations to the Rules of Golf committee, with the result that the committee has signified their approval of a code submitted to them by the Midland Golf association.

"That was how the trouble began, for we have discovered that this new code entirely altered the character of hokey competitions. Instead of match play, the new code was a code of best competition prevails under the new code. Critics of the code made haste to point out that the Rules of Golf committee can confer an official status on the new code, and the committee has received more "kicks" than praise.

We have been inclined to blame American golfers for their revolutionary tactics, continues this expert. The United States Golf association is a large and powerful body, and while it professes loyalty to St. Andrew's, this loyalty is apt to be looked upon with suspicion. In that little matter of the "selection" putter, for example, it was St. Andrew's who had to climb down.

Even in America, however, the U. S. G. A. do not have things all their own way. There is another association—the Western Golf association—which we come to regard as even more unruly and intolerant of the traditions of the game than the U. S. G. A.

St. Andrew's renounced the right day from a private source that the Western association has also submitted a code of rules on "hokey" play to the rules committee, and an examination of this code, instead of being more revolutionary, contains all the elements of the match play system.

Now, if we are to take the rules committee as the guardians of the old traditions of the game in England and the U. S. G. A. as the most demonstrative body in the states, the inevitable conclusion is that the legislative efforts of the two bodies are by no means the liking of a great proportion of the golfers they are presumed to represent.

We find the most advanced association in the states advocating the retention of the old features. We find them even acknowledging the supremacy of St. Andrew's. The cat seems to be out of the bag! We were wrong in supposing that Mid American golfers cared for hokey rule and drastic changes.

A long time ago we were urging St. Andrew's to make up its mind. Now we are inclined to implore them to go to sleep again. A middle was made of the "selection" putter, and a middle has been made of the official acceptance of the Midland code. St. Andrew's will have to climb down again. Hokey play is match play, and by trying to turn it into stroke play the rules committee only weakly confirm their ignorance, while formerly they used to boast about it.

There is still a chance for St. Andrew's. It is not too late to recognize officially hokey play, and if they are ignorant of hokey play, as they would have to be, it is still open to them to give powers to that committee of experts who would settle the law of hokey play once and for all.

## DETROIT POLICE SUPPRESS BOARDS

POLICE COMMISSIONER CROWL WILL NOT ALLOW BASEBALL SCORES TO BE POSTED IN CITY IN PUBLIC PLACES

Detroit, May 5.—Police Commissioner Crowl has undertaken to suppress baseball score boards in Detroit, except where they are placed inside buildings. These on the streets or in places where they can be seen from the streets draw such large crowds that they block traffic. Patrons often are unable to clear a passage without using rough methods. The corporation commissioner's office has notified the police commissioner that it has power to suppress score boards on the ground that they are nuisances.

"Hokey" balls have caused the slip with the White Sox, and is marching along like a regular.

## FOUR DAYS FOR OTTAWA SHOOT

CANADIAN RIFLE LEAGUE WILL HOLD MATCHES IN MAY, JUNE, JULY, AUGUST

Ottawa, May 5.—Dates for the matches of the Canadian Rifle League this year have been fixed for May 27, June 3, July 13, and July 17. Dates for entries are earlier in order that competitors of the competition can be completed before the summer holidays. Entries are already coming in and evidently there will be a very large list.

The Albany team, infants of the South Atlantic League, are holding their own in the "sally" battle. The way the Albany League races is such that they must have a regular kind of a ball team in Detroit.

It seems that Van Campbell would have signed with another major league club but he obtained his release from Pittsburgh.

## IOWA TRAVELLERS IN SESSION

Mason City, Ia., May 6.—Mason city extended a cordial welcome today to the many delegates and visitors in attendance at the annual State convention of the Travellers' Protective association.

The annual reports presented at the business session this morning showed the affairs of the order in Iowa to be in a flourishing condition. The reports of the various divisions of the order showed a steady increase in membership and finances. Following a luncheon at which the delegates were the guests of the Commercial club, the visiting members and their wives were entertained with automobile rides about the city.

"Doc" Casey, too, is a catcher and former Tiger, is playing third base and managing the Port Wayne Central League team. In a recent game with Boston Yankees scored 3 runs on 4 hits, made 4 errors and 4 fans, won the game 4 to 3. A 4-11-4. Tyler, Fred Tenney's new pitcher, looks good to the Boston fans. He is more practice, plenty of the youngster a regular winner. Jack Dalton, the former Brooklyn catcher, with Joe McInelly's New York team, and has yellow gloves and bamboo stick hooked up for class.

## The Hat and the Guarantee

The arguments that might be advanced, as to the superior quality of the Buckley Hat, are all summed up in the broad conditionless, all-embracing Buckley guarantee.

For it will be readily seen that no hat manufacturer could afford to attach to his product such a guarantee as this, unless he had fullest confidence in the wearing qualities of his hats.

English quality, in American style, the Buckley Hats have long been recognized as the highest type of gentlemen's headwear.

If you have yet to learn the "why" of Buckley popularity, you'd be doing yourself a good turn in asking your hatter to let you get acquainted with Buckley comfort, Buckley durability, and Buckley style.

Ask him to show you the many new shapes; and when you've selected the one you like, see that the Buckley guarantee slip appears under the leather sweat-band.

Then you'll have the satisfaction of knowing that—fair weather or foul, easy wear or wrecking travel—that hat has no excuse to offer you—it must last you four full months—if it doesn't, you get a new one free of cost from the hat store at which you purchased the first one.

Even accident doesn't invalidate the guarantee, for there's a clause in it that says:

"We also agree to exchange any hat if it is damaged by accident during the said four months."

The Buckley is UNION MADE—and sells for \$3.00.

## AMUSEMENTS

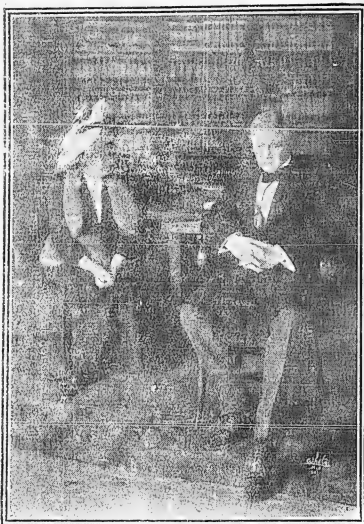

### AT THE EMPIRE THEATRE

After many weeks of high-price attractions at the Empire theatre, lovers of good comedies and dramas at popular prices will rejoice when learning the engagement of the Eckhardt company for a week stand starting Monday night with the well-known British success "A Wicked Woman." Eckhardt and his company played most pleasant engagement of three weeks in this city last season and it is with pleasure Manager Russell announced their return to his theatre. It art edifice Edmonton has the opportunity of seeing the sterling quality plays at popular prices as Mr. Eckhardt offers and we predict even greater popularity for him and his company than he enjoyed at his engagement here last year. All new productions are announced for this visit; plays just released for western territory this season and Edmonton can look forward to seeing productions during next week that will perhaps later be offered them at prices twice as high as this company ask. "A Wicked Woman" as stated above will be presented on Monday, Tuesday and Wednesday matinee followed by "Mrs. Trenchard's Telegram" Wednesday night. Each play will be mounted by Mr. Eckhardt with his usual eye to detail to every nice his personal attention, letting nothing undone, that the proper atmosphere will prevail at each and every performance. The Eckhardt Company have often been complimented by both press and public in this regard—and especially upon the continuing the ladies of the company. Gowns will be worn during this engagement by Miss Nichols that must bring genuine exclamations of admiration from the feminine portion of the audience.

Altogether the Eckhardt engagement promises to be a decided success and the opening performance will prove their unusual merits. Popular prices will prevail.

### NOTHING TO RUMOR OF DANGER FOR KAISER WILLIAM

London, May 6.—The police of Germany thought that the Kaiser was dead yesterday, but their fears were short-lived. While the emperor and the empress were landing from the Imperial yacht, Hohenzollern, in which they had arrived from Corfu, to take a train for Berlin, and were about to enter their

Scene from "A Wicked Woman," Empire Theatre, Monday, Tuesday and Wednesday Matinee.

carriage, some one hurled a packet in the face of the Kaiser. The detectives, seeing the packet in the air, awaited the explosion in terror. The "bomb," which fell in the carriage, was harmless. It contained a letter from a German resident petitioning the emperor to abandon a farm which the Kaiser's brother of the throne had given to the emperor in 1898. The thrower of the missile is residing in jail.

### BELGIUM TO WELCOME FALIERES

Brussels, May 6.—President Fallieres, accompanied by the French for-

eign minister, will arrive in Brussels Monday for a visit of several days. Elaborate preparations for his entertainment have been completed. The Belgian capital will be decorated and illuminated on a scale of magnificence not seen here in some years. The entertainment programme will include a programme in honor of the French executive at the royal palace, a gala performance at the Theatre du Monnaie and a visit to the Tervuren and the Colonial Museum.

## DETAILS OF DEATH OF FITZGERALD

Circumstances surrounding the loss of the mounted police patrol under Inspector Fitzgerald are dwelt upon in a letter which has been received from Forbes G. Campbell, a member of the Hudson Bay post at Fort McPherson. Failure of the patrol to secure an Indian guide for the trip, seems to have been the reason for its loss. The letter is as follows:

Fort McPherson, 28th March, 1911. The officer in charge, McKeown river district, Fort Smith.

Dear Sir—You may have already heard that Inspector Fitzgerald, the inspector left here for Dawson with the mail. They left here on 21st December, 1910, and never got to Dawson. An Indian whom they passed en route got into Dawson in January, and reported the patrol having left McPherson in December. A party under Corporal Dempster was sent off immediately to get into touch with the patrol, and this party arrived here on 21st of February with the news of the loss from starvation and exposure of the patrol under Inspector Fitzgerald.

The inspector, Fitzgerald, was left here with ex-Constable Caster as trail breaker, Constable Kennedy and Taylor and himself dropped teams. It took no Indian guide, as Caster possessed to be able to take them through. But when they got up to the Windy river he could not tell where the portage went in, and seemed to have not completely bewildered. After turning around for the portage for about seven days, eating up their provisions, and being unable to find it, the inspector decided to return. His diary is written up only within the last camp before the one Kenny and Taylor found in. Corporal Dempster found these two bodies in an open camp some 20 miles from here. They had died first. The inspector, but him out, and then lay down himself and died. They are in a shallow condition, and must have suffered considerably, having no provisions when they turned back but 16 lbs. flour and 2 lbs. of bacon. They ate all the food, and wrapped up in their blankets. Dempster is in a hurry to get back, as this season is getting late, so there is no time to write fully.

FORBES G. CAMPBELL.

birth, a graduate of the Royal Military College, Kingston, of the year 1880. Immediately after graduation he entered the Royal Engineers, becoming attached to a commission by virtue of his graduation. At the time when Commissioner Perry assumed command, affairs within the mounted police force were in a decidedly unsettled state, owing to the then recent heavy drafts of officers, men and horse for service with the Canadian contingents in South Africa. Of the members of the police force who will represent "G" and "N" divisions, every one has his birthplace in the British Isles. Several served in the Canadian contingents in the Boer war, and all are men of excellent record in the service of the R.N.W.M.P. Sergeant W. A. McBrayne, of the Canadian detachment, is the non-commissioned officer of highest rank in the "G" division contingent to the coronation. Formerly a member of the Royal Horse Artillery, Sergeant McBrayne served in the service of the Canadian North West Mounted Police before the outbreak of the Boer war, had been a member of the "G" division, with headquarters at Calgary, and was then transferred to "G" division, where for some time past he has been in charge of the Canadian detachment. Corporal B. M. Miller, another "non-com," who will attend the coronation ceremony, has been in the force for over three years, and has recently been stationed with headquarters at the Edmonton detachment. Constable P. S. Pearson, of Athabasca Landing, will be "N" division's representative. He has served for two years in the force. Joining in the year 1900, he was one of the first to volunteer for service with the Imperial troops in South Africa, where he was during the stormy days when the police of the Boer Republics were one of the most perilous and arduous tasks, a member of the South African Constabulary. Shortly after the conclusion of the war, Constable Pearson returned to Canada, rejoined the force, and has been in service in "N" division since that time. In 1907 he was stationed at Herschel Island, but he late Inspector Fitzgerald was at that time sergeant in charge of the detachment.

Corporal A. H. Michel enlisted four years ago. His present station is at Wetaskiwin. Constables Kendrick, of Edmonton, C. A. Martin, of Fehld, M. G. Bailey, of Vank, and Constable Exham, who has been attending the instruction class for non-commissioned officers at Regina are the other members of the contingent. The coronation of King George V. an event which will mark in a manner unprecedented in history, the strength of Imperial sentiment throughout the numerous overseas, will also provide the first occasion upon which the constabulary force will have participated more than any other in-

At the centennial of the victory of Wolfe at Quebec in 1759, a force of some forty mounted policemen were sent down to the capital of the lower provinces. As at the diamond jubilee they took with them their own equipment in horses. At the coronation in June they will be the only body of troops from Greater Britain which will go completely equipped in this and every other respect. The coronation contingent from Edmonton contains several members of the contingent which represented "G" division at the celebration at Quebec.

The R. N. W. M. P. had the honor of supplying for the Boer war; no less than eighteen officers and one hundred non-commissioned officers and men, among whom was Superintendent (then inspector) Gauthier, who is the officer commanding "G" division with headquarters at Edmonton. For his services in the South African war, Inspector Gauthier was granted the rank of major on the retired list of the active militia. Officers and men who were drafted from the mounted police

into the Second Canadian Mounted Rifles numbered eleven and 134 respectively. In Strathcona's horse were seven officers and twenty-six men drafted direct from the R. N. W. M. P., while a considerable number of ex-officers and men were in both corps. All of the chief non-commissioned officers and men of both units were, and in fact, the influence of the mounted police was so dominant in both corps that they may almost be regarded as the special contributions of the force to the armies carrying on the fight in South Africa. The force contributed to the South African Constabulary four officers and thirty-eight N.C.O.'s and constables, of whom, as mentioned above, Constable Pearson, of the "G" division contingent to the coronation, was one. The total contribution to the South African war by the R. N. W. M. P. was 245 of all ranks. No other permanent corps in the Empire was called upon to make such proportionate sacrifices.

**Interesting Chat  
From New York**

New York, May 6.—The path of re-  
formers is seldom smooth and, no mat-  
ter how serious and well meaning they  
may be, their efforts are rarely appre-  
ciated even by those who would be  
most benefited by the reforms. The  
moment a reformer leaves the field of  
speculation and theory and attempts to  
put his reform ideas to a practical test,  
his troubles begin and, with every step  
he takes, they increase at a rate so tre-  
mendous that he begins to wish he had  
never taken the first step. Reforming is  
a thankless undertaking, as many  
well-meaning reformers, like Collector  
Loeb, Mayor Gaynor and a few others  
have found to their chagrin and dis-  
appointment. By their efforts they  
lost many friends, drew severe criti-  
cism and vituperation upon their own  
heads and, even if they succeeded in  
overcoming the active and passive re-  
sistance of their opponents, the knowl-  
edge of having conscientiously done  
what they considered their duty, was  
their only reward.

Some time ago Leonard McInnes, at-  
torney-in-chief of the Local Aid So-  
ciety, contended he would become a re-  
former, but it is dollars to doughnuts  
that he has changed his mind about it.  
He thought, in his modest way, that he  
had found the solution of the servant  
problem and was confident that his little  
reform plan would end all difficul-  
ties offered by the servant prob-  
lem. Now, however, he is not quite so  
sure of it. His plan was to refuse legal  
aid to servants until they would dis-  
cuss to their employers, and to read  
all such applicants a lecture on play-  
fair. As about sixty per cent. of  
all men applying for legal aid were ser-  
vants, and as fully sixty per cent. of  
these had quit their employers while in  
a state of "nerves," or in a huff over  
some incident of a day's routine, the  
lecture course at first seemed prom-  
ising. But the applicants did not appre-  
ciate these lectures. It is true, the num-  
ber of applicants dwindled to an aston-  
ishing degree, but Mr. McInnes' plan  
increased in proportion. The letters  
from servants who had been lectured  
and the messages were not only  
extremely impolite but, in some cases,  
abusive and threatening.

The war against merchants who  
gloat their customers by giving them  
credit, is vigorously, is vigorously  
continued by the commissioner of  
weights and measures. Many of the  
"honest" farmers, whose baskets were  
confiscated some time ago during a  
market raid by the commissioner and  
his deputies, actually had the cheek to  
demand the return of the confiscated  
baskets, saying that they "needed them  
in their business." They insisted that  
the baskets were of full measure,  
but when the commissioner offered to  
pay \$100 for every one of the seized  
baskets that should prove full measure,  
provided the "honest" farmers would  
pay \$100 for every basket under stan-  
dard, not one of the farmers had the  
courage to take the offer.

There were no services at the Sec-  
ond Reformed church in Somerville, N. J.,  
the other Sunday, because the pas-  
tor failed to make his appearance. The  
case was rather puzzling to the congre-  
gation, as the pastor sent no word  
of explanation. Not until the follow-  
ing day was the cause of his absence  
ascertained. Some time ago he had  
made an arrangement with a minister in  
New York for a exchange of pulpits on  
the last Sunday in April. Unaware of  
the fact that there were five Sundays in  
April, the pastor hurried to New York  
on the morning of the fourth Sunday  
to preach in his colleague's church.  
When he arrived at the church a trifle  
late he found his colleague conducting  
service as usual. Not until the service  
was ended did the New Jersey minister  
have an opportunity to learn from his  
colleague that there were five Sundays  
in April, at least this year.

For more than twenty-eight years  
the good citizens of Yonkers have  
prided with pride to the tall figures  
"1682-1882" on the roof of their his-  
toric manor house without a suspicion  
that anything was wrong with them. It  
was shown that the figures were plac-  
ed upon the building by the late Dr.  
Esmond Swift, a reform mayor of  
Yonkers and they naturally supposed  
that the figures indicated that the  
manor house had been built in 1682.  
Recent researches by the Historical So-  
ciety, however, have established  
beyond doubt that the manor house  
was not built until some time after  
1720 and that Dr. Swift, although he

placed on the roof, for the sake of ar-  
ranging a bi-centennial celebration and  
thereby gaining prominence.  
The cause of the confusion was a  
girl of fourteen years who was arrest-  
ed the other day, seems to be developed  
in a peculiar direction. For several years  
it has been an inexhaustible source of  
pleasure and amusement to her to send  
in false alarms for the first department,  
hospital, ambulances, doctors and  
priests. When arraigned before the  
children's court she confessed and said  
she could not tell why she did these  
things but it was "great fun" to see the  
doctor or the priest rush into a house  
when she knew that they were not  
needed. It was pointed out to her the  
mental condition of the girl ex-  
amined.

There were some exciting scenes in  
a case before Judge McVoy of the city  
court the other day. A lawyer, named  
Charles H. Stoddard, had appeared be-  
fore Judge McVoy to argue a motion  
for the vacation of an order for his ex-  
amination in supplementary proceed-  
ings. After hearing the long argument  
Judge McVoy denied the motion and  
ordered Stoddard sworn. Stoddard be-  
came excited and refused to be sworn.  
The judge insisted, Stoddard  
made a rush for the door and succeeded  
in reaching City Hall park. He had a  
good start toward Broadway but he was  
overtaken and overpowered. He fought  
like a tiger, but was dragged back  
to the court room. Judge Mc-  
Voy severely lectured the rebellious  
lawyer and sentenced him to five days  
confinement in the Tombs and the pay-  
ment of a fine of \$200 for each day of  
contempt of court. Stoddard did not go  
to the Tombs willingly, but had to go  
as dragged all the way.

**MEDAL FOR DONOR OF MEDALS**

Washington, D. C., May 6.—After  
having been paid homage by many of  
the rulers of the world and by the peo-  
ple of many nations, Andrew Carnegie  
today received what is declared to be  
the first honor ever conferred upon an  
individual by a group of nations. In  
the presence of the President of the  
United States, the diplomatic representa-  
tives of many countries, senators, re-  
presentatives, judges and other high  
officials, the world-famous philan-  
thropist was this afternoon presented  
with a gold medal by the Pan-  
American conference held at Buenos  
Ayres last summer.

The formal presentation was made  
by John Barrett, chief of the interna-  
tional Bureau of American Republics.  
The diplomatic representatives of the  
various South and Central American  
republics embraced in the conference  
delivered brief addresses appropriate  
to the occasion. An inscription which  
appears on one side of the medal ex-  
plains its importance. It reads, "Ben-  
efactor to Humanity." On the reverse  
side of the medal is engraved, "The  
American Republics to Andrew Car-  
negie."

**GIRL SHOOT RUSSIAN PRISON  
INSPECTOR AT THEATRE**

St. Petersburg, May 6.—A girl who  
is not known to the police, shot Ef-  
imoff, the prison inspector, with a re-  
volver, while he was sitting a stall  
seat at the theatre at Volodna last  
night. Efimoff was dangerously  
wounded. The girl escaped during the  
excitement that followed the shooting.  
Efimoff's wife and two others were  
also wounded. There were many per-  
sons arrested, but the real culprit was  
not captured. Efimoff has been held  
responsible for the recent flooding of  
political prisoners in Volodna.

**NIGHT MASS IN BIG CATHEDRAL**

ARCHITECTURE AND BUILDING SHOW

New York, May 6.—A large gather-  
ing of clergy and laity will fill St.  
Patrick's cathedral an hour or so be-  
fore sunrise tomorrow morning to at-  
tend a solemn pontifical mass, the  
first ever celebrated at that time of  
day, or rather night, in the fifth  
avenue church edifice. The occasion  
will be the celebration of the tenth  
anniversary of the death of the  
early morning mass for newspaper-  
men and other night workers.

Archbishop Farley will officiate at  
the mass and Bishop McFaul, of Tre-  
nton, will deliver the sermon, invita-  
tions have been sent to many clergy-  
men and other representative men of  
all parts of the country, irrespective  
of religion, and many have promised  
to attend.

The first night workers' mass was  
held by Father Evers at St. Andrew's  
church, in Duane street, in 1901, after  
a dispensation had been obtained from  
Pope Leo XIII. The weekly attendance  
is now in the neighborhood of 1,200.

**SOUTH ATLANTIC SANGREEST**  
Atlanta, Ga., May 6.—Atlanta is in  
holiday attire for the fifth annual  
convention of the South African League  
of German Societies, which convenes here  
tomorrow.

Arriving trains today brought thou-  
sands of delegates and visitors to the  
city from Jacksonville, Montgomery,  
Pensacola, Tampa, Mobile, New Or-  
leans, Athens, Birmingham, Memphis,  
Mobile, Charleston, Chattanooga and  
other points.

The decorations at the Auditorium,  
where the meetings and concerts will  
be held, were completed today. The  
national colors of Germany and the  
United States have been blended har-  
moniously in all the decorations. The  
work has been artistically done, and  
the great hall presents a beautiful and  
attractive appearance to the eye of every  
holder.

**For Eczema**

A Treatment That Is Guaranteed to  
Give Relief.

Eczema is a very common skin disease. It is  
said to be a contagious disease. Un-  
til the parasite of germ hidden in the  
skin is completely destroyed and re-  
moved, eczema cannot be cured. The  
one-third of all skin disease is in the  
form of eczema. It affects persons of  
all ages and of the wrong type,  
where there is a constant flow of an  
ill-sounding excretion, or of the other  
intermediary form, such as ring worm,  
scabies, pimples, blotches and discolora-  
tions.

We unhesitatingly guarantee to re-  
turn every cent paid us for Hecall  
Eczema Ointment in every case where  
it fails to give entire satisfaction. It  
removes the itching, burning, and dis-  
figuring skin disease. We urge you to try  
a box at our risk. Your money will  
be refunded if you are not satisfied with  
the treatment. Two sizes, 50c and \$1.00.  
Remember, you can only obtain Hecall  
Eczema Ointment in this town at our  
store—The Hecall Store, A. Archibald.

The noblest and most up-to-date  
goods made.

The best is none too good for you.

**B'RITH ABRAHAMITES TO MEET**

Indianapolis, Ind., May 6.—The  
twenty-fifth biennial convention of B'  
rith Abrahamites will begin its sessions  
in this city tomorrow. More than 1-  
000 delegates from all parts of the  
country are expected to be present.  
The leaders of New York city alone are  
sending 500 delegates to the gathering.  
Governor Marshall will welcome the  
visitors and they will be obligated en-  
tirely during their four days' stay  
in the city.

The Order of B'rith Abraham was  
founded more than fifty years ago and  
is one of the oldest Jewish organiza-  
tions in America. It now extends from  
the Atlantic to the Pacific and has more  
than 20,000 members. In the past two  
years it paid \$616,000 to the widows  
and orphans, \$200,000 to sick members  
and donated \$15,000 to hospitals and  
orphan asylums.

## REAL ESTATE BULLETIN

In the business districts, Jasper Avenue, as usual, is in the greatest demand, with warehouse sites a good second, the demand for both of these remaining very steady.

In residential lots, yesterday's bulletin still applies, there being little speculative buying at the moment, but considerable enquiry for inside property for building purposes.

In houses, the demand is still for the West End, where there are numbers of residences about as cheap as the better class of those in the East End. There is also a little East End demand which we are able to satisfy without trouble.

## ALBERTA PARK

The call for this property is being well maintained, and the choice blocks are being quickly picked up.

We ask the privilege of showing you the advantages of this suburb as an investment.

Call and see us or phone us to 1850.

## Today's Offerings Business Properties

- 2 lots in Block 7, Jasper Avenue ..... \$85,000
- 150 feet on First Street, north of tracks, revenue-producing; per foot ..... \$400
- 150 feet on First Street, south of tracks; per foot ..... \$1,000
- A lot on Third Street, close to Jasper ..... \$13,500

## Residential Properties

- A 10-roomed modern house on 16th Street; price ..... \$6,200
- A 12-roomed modern residence on corner on 5th Street, north of Jasper, garage, conservatory, hot water heating ..... \$18,000
- An 8-roomed modern brick bungalow on Victoria Ave. .... \$6,500
- A modern bungalow on valuable corner in Groat Estate ..... \$5,550
- A 9-roomed modern house on corner in Groat Estate ..... \$6,700

## REPORTS TO BE MADE MONTHLY

By All Municipal Departments to the City Commissioners.

Monthly reports from all city departments will be received by the commissioners on and after the first of June. This system was inaugurated several months ago but owing to certain difficulties it was impossible to bring the new system into effect until the present time. Reports have been received from the first of November last year up to first of April, 1911 and these will have to be filled in by the secretary treasurer.

There has been some difficulty, owing to the change in the accounting system, in securing accurate reports from the power house department but this will be rectified in time to ensure detailed reports being submitted by all the departments on the first of June. These reports will show the exact standing of the departments not only for one month but also for the corresponding month in the previous year and will enable the citizens to ascertain just what advantages it is secured by each department instead of being compelled to wait for the report of the city auditor at the end of the fiscal year.

## CHIEF JUSTICE REJECTS PLAN

And Confirms Ruling of Commissioners as to Crondale Lane.

Before Chief Justice Harvey in the supreme court chambers, his honor's application was made by M. Edgar for an order directing the registration of a plan of a portion of Block 6, Crondale, facing on Alberta avenue, in which the full width of the block from Port to James street is shown without the intersection of a lane. In the plan the lane is carried parallel to Alberta avenue, south of the avenue by the depth of one row of lots, and forming a "T" with the lane running north and south. This plan was rejected by the commissioners recently, the board determining that the lane be carried through to intersect Albert avenue, and their decision was confirmed by the judge.

In the course of the hearing it was pointed out by the applicant's attorney that some eighteen blocks in all on Alberta avenue are subdivided in the manner shown on the rejected plan, and that registration of these has been obtained.

E. S. McQuaid, counsel for Mr. Edgar, was represented by A. H. Adams. A special address to the high school students will be held in the 101st armory (Theatre rink, Second street) on Monday night at 8 p.m. All veterans are requested to attend.

Over five hundred dollars was made by the realtor by the Women's Hospital Aid in the production of "Alice in Wonderland," a few weeks ago.

A special address to the high school students will be held in the 101st armory (Theatre rink, Second street) on Monday night at 8 p.m. All veterans are requested to attend.

A meeting of the Imperial Veterans association will be held in the 101st armory (Theatre rink, Second street) on Monday night at 8 p.m. All veterans are requested to attend.

The Royal bank will open a branch at Athabasca Landing within a short time. The exact date on which the branch will be opened has not yet been decided upon.

A meeting of the Imperial Veterans association will be held in the 101st armory on Monday evening at eight o'clock.

"The Stranger's Sabbath Home"—First Baptist church—Rev. F. V. Patterson, minister. Services at 11 a.m. and 7:30 p.m. Mr. Patterson will preach at both services. In the evening Mr. Patterson will deliver the sermon and in a series of Strange Texts. Subject: "How Shall I Put on My Coat?" The monthly communion will be observed at the close of the morning service.

"A" squadron 19th Alberta dragoons will parade from the separate school hall Third street, on Monday evening, the 8th inst., at 8:00 o'clock precisely. A full attendance of all ranks is required. Dress, drill order.

Tomorrow afternoon at 4 o'clock the usual temperance meeting will take place in the Orpheum theatre. The committee in charge have arranged for the Rev. Jas. Goulter to address the gathering on a temperance topic. A musical programme has also been prepared. The Westminster church choir will participate in the singing. Miss McLean and duets by Miss Pam Greening and Miss McLean will also be rendered, while solos will be given by a musical quartette. The expenses of the meeting will be defrayed by the usual collection.

## DR. TORY HEADS DELEGATION

(Continued from Page One.)

It was also suggested that the proposed line over the high level bridge might be diverted from Fifth to Sixth streets in Strathcona but this did not meet with favor as it would necessitate too many curves on the direct line between the two cities.

After a lengthy discussion it was decided to have the city engineer and the superintendent of the street railway submit reports on the question. The commissioners will also go over the ground to get first hand information on how well the problem after which the question will be taken up with the Strathcona authorities.

## BUILDING BYLAW BEING VIOLATED

(Continued from Page One.)

Of Jasper, between Fourth and Fifth streets. Frank Park, K. C., appeared for Mr. Carr and during the course of his argument cited a number of cases where the provisions of the bylaw had been violated and no action had been taken by the city. Mr. Ford also pointed out that there was grave doubt as to whether the city had any right to specify the number of stories to be erected when a structure is fireproof.

The commissioners, after a lengthy discussion, intimated to Mr. Ford that his client would have to remove the structure, but decided to seek the city solicitor's advice before taking action. It is probable that a decision will not be reached short of the courts.

Commissioner Boulton contends that the violator in the rear of Lewis is a menace to life and property and Mr. Lewis was asked to show cause why he should not be removed. After some discussion, it was decided to refer the question to the building inspector and the superintendent of the electric light department with power to act.

Dr. T. H. Whitelaw wrote the commissioners with respect to the attack upon the isolation hospital by a local mob.

Dr. T. H. Whitelaw wrote the commissioners with respect to the attack upon the isolation hospital by a local mob.

Dr. T. H. Whitelaw wrote the commissioners with respect to the attack upon the isolation hospital by a local mob.

Dr. T. H. Whitelaw wrote the commissioners with respect to the attack upon the isolation hospital by a local mob.

cal medical man. The commissioners passed a resolution expressing confidence in the health officer and announced that when a citizen expected to secure redress he must file his complaints with the central administration instead of with the different superintendents.

The preparation of a new draft of the gas agreement was, upon the motion of Commissioner Boulton, laid on the table until after the two new commissioners are appointed.

## COMMISSIONER SEE LOOPHOLES

(Continued from page one)

could not state when work would be commenced on the new agreement. The commissioner is confident that in order to protect the interests of the citizens that it will be necessary to prepare a complete new agreement as there is not a clause in the old draft that would contain a number of loop holes, which, if adopted, the city might prove a source of endless trouble in the form of legal actions.

It is probable that no action will be brought in on the question for at least two weeks as the commissioners and a industrial committee have not yet met to discuss the question and it is anticipated that when it is taken up considerable time will elapse before an agreement satisfactory to all parties is reached. There is little probability of a report being submitted to the city council within the next two weeks and even after the report is in the discussion which must ensue in council on the different clauses of the agreement will take up considerable more time.

## BRITISH CAPITALISTS BACK NEW RAILWAY

(Continued from page one)

Very little regarding his project while here. The project in which these capitalists are interested is the building of a line of railway across from Hudson Bay to the Pacific coast. This line will tap the mineral country in Northern Alberta and Northern B. C. There will be branches into Winnipeg, Prince Albert and later Edmonton. The branch from Edmonton is projected to run northwest from here to join the main line somewhere in the Peace river country. The Pacific terminus of the main line will be Port Simpson.

## JUDGE DECLARES REAL ESTATE DEALER WAS GUILTY OF FRAUD

(Continued from Page One.)

In March, 1910, Mr. Dickson had failed to come through with all the payments due to the plaintiff, and stated in examination that Mr. Brown had been remiss. In May, 1910, Brown brought action against Dickson alleging fraud.

The judgment in the case is a lengthy document, in the course of which Mr. Justice Simpson reviews the whole of the circumstances of the case. He gives judgment for the plaintiff for the value of the property at \$45 an acre, less \$14,250 allowed for his proportion of the rental of the land. To Brown as against Dickson judgment is given for the difference between the price paid by him and \$45 an acre.

Commenting on Dickson's representation to Brown that his own version of the affair, this is a palpable falsehood, plainly intended to convince Brown that Dickson had bought the property at \$20 an acre.

"I find upon the question of fact that the plaintiff did consent to Dickson retaining five per cent commission on the sale at \$45 an acre, but he did so in the belief induced by the misrepresentation of Dickson that \$45 was the actual price. I find also that Dickson was the agent of Brown for the purpose of purchasing the site and lands from the plaintiff and that he did falsely and fraudulently represent to Brown that \$20 was the price at which Brown was purchasing the said lands from him."

During the empire-grindline tour in Canada of the Sheffield Choir, the Heintzman piano will be used exclusively.

Joseph Driscoll, clerk of the district court, has returned to the city after a visit to Eastern Canada.

## Nearly all the Greatest Artists use Heintzman & Co. Piano

## Sheffield Choir

whose engagement is announced in Edmonton, on May 9-10 has seen fit to insist that the Heintzman & Company piano be the one and only instrument to be used on their present tour.

It has been the same in the past with Mark Hambourg, Melba, Gave and many others.

But whether it be in the concert hall or in the home, the Heintzman superiority is indisputable.

It stands on a plane higher than any piano in Canada has ever before attained.
